Find the underlined words and complete the sentence below with the left -over letters.

We are hatching eggs in an incubator. The thermostat in the incubator keeps the temperature even.

The eggs are from a hen, so when they hatch we'll have chickens.

When the chicks are strong enough they will go into a brooder box with a light to keep them warm. The chicks eat special chick bits, but when they are older they will eat insects, worms, vegetable scraps, grain and some grass.

When the chicks grow up they will be roosters or hens.
