

# Colour Poem

Think of as many yellow nouns as you can. Your poem does not have to rhyme.

## Yellow

Yellow is the colour of a little chick  
It's the colour of the sun  
It's the colour of a car  
And also the feeling of having fun  
Butterflies are yellow  
And stars on a clear night.  
Custard in a jug  
And cheese with a knife  
Bananas are yellow  
So is the light above  
The body of a bee is black and yellow  
And pencils in a box.  
The yolk of an egg is yellow  
Topaz stones in a ring are too  
Tiny daisies in the green grass where we play as well as  
Yellow cordial on a hot day  
It's also a happy feeling  
The colour of hay and  
The feeling you have when friends come to stay.  
Yellow is the colour of flowers so bright  
Sometimes the moon looks yellow on a starry night  
Yellow is the colour of fireflies and candlelight  
Lemons and pears are yellow  
Positive thoughts are too.  
My favourite colour is yellow  
How about you?
